

I enjoy Mr. Basom's class a lot. First of all, I enjoy his class because it is fun and we get to act like another person. Next, I like it when we pretended that we were falling down into the water. Also, I like Mr. Basom's class because we could play games like "melting tag". Finally, I like Mr. Basom because he made us believe that we were on the beach and a dog came and licked us and we didn't like it so we scared the dog away. And we could also feel the wind on the beach
